Professional Experience

Business Consultant - GTM Engineer & Strategic Advisor | Strategic Market Insights (self-employed) | July 2026 – Present
New York, NY · Advisory & GTM engineering practice · Key Engagement: healthcare AI start-up (confidential)

- Onboarded a healthcare tech startup's team to a gated tracking system, giving the CEO approval oversight on dev expenses and fractional work hours.
- Authored the launch-readiness assessment that reset the execution sequence, converting five organizational gaps into a dated plan with named owners.
- Built the practice's multi-tenant client engagement tracker with Claude Code, with 60 automated tests enforcing cross-client data isolation.
- Diagnosed data-sync failures caused by null values and missing governance rules, then enforced sync governance constraints through 60 automated tests.
- Ran weekly forecasting cadence via a central dashboard tracking sequenced GTM gates and owners, resolving blockers with the team.
- Blocked a proposed EHR data migration as an uncompensated asset transfer, defining the NDA-to-BAA sequence that protected the client's data asset.
- Produced the collateral the client sells with: pitch deck, competitive battlecards, partner negotiation sheets, and an eight-document executive round table.

Advertising Sales Director - Pro-Division | Professional Sports Publications | March 2026 – August 2026
New York, NY · Print-Media Advertising Agency supporting all major professional and university sports teams (yearbook and program ad placement)

- Modeled a \$10.98 blended CPM against 1.32M reach and a \$2,849 cost-per-acquisition benchmark to price a \$14,500 buy on outcome economics.
- Closed 5 signed NFL and MLB team-media partnerships, all paid in full at signing, including 2 accounts with no prior purchase history.
- Qualified every prospect against the budget that can fund it — co-op, MDF, sponsorship, and 501(c)(3) dollars — opening 2 net-new accounts.
- Identified key decision-makers with ZoomInfo, LinkedIn Sales Navigator, and AI-assisted account mapping using OpenAI and Claude models.
- Analyzed competitor products and services against ROI benchmarks, building metrics frameworks (CPM, readership, audience reach) to strengthen positioning.

Business Consulting Engagements

Healthcare Technology Start-Up (Confidential) / New York, NY / July 2026 – Present (Part Time)

Principal Business Strategist – GTM Plan, Business Architectural Roadmap, Blueprint to Obtain Necessary Funding – Healthcare FinTech Start-Up

- Built the multi-tenant, role-scoped client engagement tracker that runs the advisory practice using Claude Code — including 60 automated tests asserting cross-client data isolation — with no prior engineering background.
- Produced the customer- and investor-facing collateral the company now sells with: pitch deck, competitive battlecards, partner negotiation sheets, and an eight-document executive round table with per-presentation talking points.
- Set the unit-economic gates the motion is now measured against: blended CAC under \$900, payback under 12 months, monthly churn under 5%, time-to-first-value under 7 days.
- Own go-to-market for an AI compliance product sold into independent clinical practices — segmentation, positioning, pricing tiers (\$99/\$249), channel strategy, and the sequencing that determines which motion gets funded first.
- Mapped a \$0.76B category projected to reach \$5.9B by 2035 (22.8% CAGR), benchmarked five direct comparables across four structural models, and built a decision tree of four exit paths with base-rate odds attached — including the cautionary comparable that won regulatory clearance and still failed on commercialization.

- Applied scenario planning and second- and third-order consequence analysis across business, technology, regulatory, and organizational exposure — surfacing downstream consequences before commitments locked in.
- Concluded that distribution — not product — decides the outcome, redirecting GTM toward malpractice-carrier and professional-association channel partnerships after modeling that a direct human sales motion cannot carry a 12–18 month CAC payback at those price points.
- Designed and launched a 30–40 interview customer discovery sprint to size real addressable demand — screener, interview guide, scoring rubric, and 150-practice candidate universe built from scratch — classifying prospects by platform dependence against a pre-agreed threshold that fires a documented kill/pivot decision instead of a debate.
- Ran financial forecasting (P&L, tool-stack cost model, Year-1 ARR band) and barriers-to-entry analysis to price strategic alternatives before capital committed; recommended a ~\$2.15M non-dilutive federal funding route over an equity raise, tied to a dated decision gate.

HVAC Services Firm (Confidential) / Santa Clarita, CA / August 2026 – September 2026 (Part Time)

Consultant - Principal Analyst GTM Expansion

- Analyzed a proposed expansion site for an HVAC services firm and delivered a feasibility roadmap and governance framework built on a cost-ceiling approach, giving leadership a structured basis for evaluating the expansion decision beyond the initial feasibility dashboard.
- Built a feasibility dashboard with kill/pivot triggers for an HVAC firm's market-overlap expansion, using cost-ceilings to curb cannibalization and protect profit.
