Professional Experience

Business Consultant - GTM Engineer & Strategic Advisor | Strategic Market Insights (self-employed) | July 2026 – Present

New York, NY · Advisory & GTM engineering practice · Key Engagement: healthcare AI start-up (confidential)

- Own go-to-market for the client's AI compliance product sold to independent clinical practices — segmentation, positioning, \$99/\$249 tiers, and channel strategy.
- Built the practice's multi-tenant client engagement tracker with Claude Code, with 60 automated tests enforcing cross-client data isolation.
- Built a custom CRM from scratch with GTM and prospecting connectors, automated weekly contact enrichment, and account-research agents two-way synced to GitHub.
- Concluded distribution, not product, decides the outcome, redirecting GTM to malpractice-carrier and professional-association channel partners.
- Reconciled the client founder's four-pillar vision and three build memos into one staged roadmap: 12 recommendations, 4 stage gates, 8 board decisions.
- Advise the CEO and board of a healthcare AI start-up client, translating business, technology, regulatory, and workforce tradeoffs into board-ready decisions.
- Negotiated the engagement's terms directly, restructuring a 320-hour proposal into 166 hours at the same fee and pulling the key deliverable to Day 15.

Advertising Sales Director - Pro-Division | Professional Sports Publications |

March 2026 – August 2026

New York, NY · Print-Media Advertising Agency supporting all major professional and university sports teams (yearbook and program ad placement)

- Modeled a \$10.98 blended CPM against 1.32M reach and a \$2,849 cost-per-acquisition benchmark to price a \$14,500 buy on outcome economics.
- Closed 5 signed NFL and MLB team-media partnerships, all paid in full at signing, including 2 accounts with no prior purchase history.
- Owned the full sales cycle in a pure new-business role — prospecting, discovery, pricing, proposal, negotiation, and close — with no SDR layer.
- Built and maintained a ~\$115K active proposal pipeline through a diagnostic, discovery-first approach rather than a pitch-led one.
- Identified key decision-makers with ZoomInfo, LinkedIn Sales Navigator, and AI-assisted account mapping using OpenAI and Claude models.

Business Consulting Engagements

Healthcare Technology Start-Up (Confidential) / New York, NY / July 2026 – Present (Part Time)

Principal Business Strategist – GTM Plan, Business Architectural Roadmap, Blueprint to Obtain Necessary Funding – Healthcare FinTech Start-Up

- Own go-to-market for an AI compliance product sold into independent clinical practices — segmentation, positioning, pricing tiers (\$99/\$249), channel strategy, and the sequencing that determines which motion gets funded first.
- Built the multi-tenant, role-scoped client engagement tracker that runs the advisory practice using Claude Code — including 60 automated tests asserting cross-client data isolation — with no prior engineering background.
- Concluded that distribution — not product — decides the outcome, redirecting GTM toward malpractice-carrier and professional-association channel partnerships after modeling that a direct human sales motion cannot carry a 12–18 month CAC payback at those price points.
- Set the unit-economic gates the motion is now measured against: blended CAC under \$900, payback under 12 months, monthly churn under 5%, time-to-first-value under 7 days.
- Mapped a \$0.76B category projected to reach \$5.9B by 2035 (22.8% CAGR), benchmarked five direct comparables across four structural models, and built a decision tree of four exit paths with base-rate odds attached — including the cautionary comparable that won regulatory clearance and still failed on commercialization.
- Designed and launched a 30–40 interview customer discovery sprint to size real addressable demand — screener, interview guide, scoring rubric, and 150-practice candidate universe built from scratch — classifying prospects by platform dependence against a pre-agreed threshold that fires a documented kill/pivot decision instead of a debate.
- Produced the customer- and investor-facing collateral the company now sells with: pitch deck, competitive battlecards, partner negotiation sheets, and an eight-document executive round table with per-presentation talking points.

- Applied scenario planning and second- and third-order consequence analysis across business, technology, regulatory, and organizational exposure — surfacing downstream consequences before commitments locked in.
- Ran financial forecasting (P&L, tool-stack cost model, Year-1 ARR band) and barriers-to-entry analysis to price strategic alternatives before capital committed; recommended a ~\$2.15M non-dilutive federal funding route over an equity raise, tied to a dated decision gate.
